

#004 · Build guide

Liftoff Rocket: Riding the Flame

218 parts · 7 colours · 221 steps · ~18 h print

CC BY-NC-SA 4.0 · Free for personal use · Commercial use needs permission

Before you start

Printing

Open the 3MF in Bambu Studio: every part is already laid out on plates, one colour per plate. Tuned for the Bambu Lab A1 with a 0.4 mm nozzle, tight fit.

Reading the steps

Each step shows the model from the side (left) and from above (top right): the part to add is in full colour with an orange outline, earlier parts are faded, and the orange box at bottom right pictures the part and how many you need. Steps marked Sub-assembly are built in your hand first, shown upside down; the next Fit step places the finished group as one piece.
